FIBERGLASS

Advanced fiberglass molding technology
that mimics wood.

9' Caroma panel, Cherry finish

7' Horizontal Raised panel, Mahogany finish

This could be the
most beautiful
wood garage door you've ever seen.

Except it's
not wood.

uses the Accugrain™ technology of Therma-Tru™, the most respected name in fiberglass doors. The artfully molded wood-grain fiberglass surface, combined with durable steel construction, produces a realistic, natural-looking wood texture, pattern and appearance. It won't warp, crack or rot like wood, or dent like steel might, providing years of outstanding performance and beauty.

performance features

Insulation

comes with foamed-in-place polyurethane insulation with an R-value of 7.6*, which can improve your home's thermal efficiency, block street noise and make the door operate more quietly.

Bottom Weather Seal

This bulb shaped seal blocks draft and debris from entering the garage.

Pinch-Resistant Panels

Pinch-resistant door panels help push fingers out of harm's way if accidentally placed near a closing door.

Torquemaster® Plus Counterbalance**

exclusive counterbalance system safely and cleanly contains the springs inside a steel tube.

* uses a calculated door section R-value for our insulated doors.

** Available for Vertical Raised, Horizontal Raised and Horizontal V-Groove Panels up to 9'x8' and Sonoma Panel up to 9'x7'.
